COVID AND MASKING GUIDELINES

Background:

Covid is still affecting, killing, and disabling thousands of people. Therefore, this guideline would add a “mask recommended” to in-person Exiles events in the accessibility section. This was discussed and approved in the 8/14/25 Exiles Business Meeting.

Proposed Forbidden Tickets Verbiage:

Due to the ongoing impact of covid, especially to vulnerable and marginalized populations, the Exiles recommends attendees wear a mask to any in-person event. Any mask is better than no mask, but the best types of masks are N-95, KN-95, and KF-94 masks. If cost is a barrier, please check out the organizations on https://maskbloc.org/, which lists mutual aid organizations dedicated to providing free masks and other covid protection resources to as many people as they can.

Website Event Manager Verbiage:

Masks recommended at your comfort level.
